**OLD BRIDGE
STARI MOST**

Dragi prijatelji,

zadovoljstvo mi je poželjeti Vam dobrodošlicu u Hercegovačko-neretvansku županiju, prostor nevjerovatne prirodne, povijesne i autentične kulturne baštine, a napose radišnih i gostoljubivih ljudi koji stoljećima žive u suglasju s prirodom, uživaju u njezinim blagodatima i plodovima svoga rada.

Jedinstvenu prirodnu ljepotu u kojoj se smjenjuju impozantne planine i plodna polja, bistro rijeke i potoci, bujna vegetacija ali i zone ogoljela krša, mistični svijet krških podzemnih špilja, te jedna od najljepših obala mora, dodatno upotpunjuje i zaokružuje bogato povijesno i kulturno nasljeđe u kojem se isprepliću Istok i Zapad, svjedočeći o burnoj prošlosti i različitim civilizacijama koje su ovdje ostavile traga.

Uz mogućnost boravka u netaknutoj prirodi u kojoj se, kao rijetko gdje u svijetu, još uvijek može osjetiti miris zemlje, žubor vode i cvrkut ptica i postići ravnoteža duha i tijela, te uz obilazak kulturno-povijesnih znamenitosti, ovdje možete provesti i aktivan odmor uživajući u ljepotama planinarenja, padobranskog jedrenja, bicikliranja, raftinga na divljim vodama ili avanturističkog istraživanja krškog podzemlja.

Posebna priča je gastronomska ponuda ovog kraja u kojoj se, kao i u svemu ostalom, spajaju Istok i Zapad, mirisi i okusi orijentalne i mediteranske kuhinje koji će, uz plemeniti buke Žilavke i Blatine - autohtonih vina koja su poznavali i priznavali na mnogim europskim dvorovima, počevši od dvora kralja Tvrtka do engleske kraljice Viktorije, zadovoljiti svako nepce i još jednom ispričati priču o dugoj povijesti, kulturi i životnom stilu ljudi ovog kraja.

U dobroj vjeri kako sam Vam uspio dočarati makar djelić jedinstvenosti Hercegovačko-neretvanske županije, još jednom svima vama želim iskrenu dobrodošlicu i ugodan odmor.

Dobro nam došli.

Lokacija

Mostar se nalazi na jugu Bosne i Hercegovine, točnije rečeno nalazi se u centru Hercegovine. Mostar i njegova okolina se geografski može opisati kao čvorište sjeverne, zapadne i istočne Hercegovine. Kroz centar grada se proteže kanjon rijeke Neretve pa je Mostar poznat i pod nadimkom "grad na rijeci Neretvi". Nalazi se 132 km jugozapadno od Sarajeva, odnosno 57 km sjeveroistočno od Ploča.

Location

Mostar is located in the south of Bosnia and Herzegovina, more precisely, it is located in the center of Herzegovina. Mostar and its surroundings are geographically described as a node of northern, western and eastern Herzegovina. Through the center of the city extends the canyon of the

Neretva river. Mostar is also known by the nickname "city on the Neretva river". It is located 132 km southwest of Sarajevo, and 57 km northeast of Ploče.

Klima

Mostar ima umjerenu sredozemnu klimu s blažim, ali hladnim zimama (uz malo ili nimalo snijega), te veoma vrućim ljetima gdje temperature u hladu znaju iznositi i do 45 celzijevih stupnjeva. Zbog toga je Mostar bio najtopliji grad u bivšoj Jugoslaviji, a danas u Bosni i Hercegovini. Mostar je uz Atenu grad s najviše sunčanih dana u godini, a snijeg u Mostaru je prava rijetkost.

Climate

Mostar has a moderate Mediterranean climate with mild, but cold winters (with little or no snow), and very hot summers where temperatures in the shade can reach up to 45 degrees Celsius. That is why Mostar was the warmest city in the former Yugoslavia, and today in Bosnia and Herzegovina. Mostar along with the Athens is the city with the largest number of sunny days per year, and snow in Mostar is a rarity.

Jezik: Službeni jezici koji se pričaju u Mostaru su Bosanski jezik i Hrvatski jezik. S obzirom da je Mostar turističko mjesto, većina stanovništva govori i po neki strani jezik, pretežno engleski.

Language: The official languages that are spoken in Mostar are Bosnian and Croatian language. Since Mostar is a tourist town, most of the population speaks some kind

of a foreign language, mostly English.

Flora i fauna

Flora i fauna Bosne i Hercegovine općenito, pa tako i hercegovačke regije ubraja se u najraznovrsnije u čitavoj Evropi, a visok stepen endemičnosti daje joj značaj na nivou globalne biološke raznolikosti. Na geografski malom prostoru, kao rijetko gdje u Evropi, egzistiraju endemni centri u kojima se i danas odvijaju procesi nastajanja novih vrsta. Posebnu specifičnost predstavljaju brojni kanjoni i klisure bosanskohercegovačkih rijeka (kanjoni Une, Neretve, Drine, kanjoni i klisure pritoka u izvorišnom dijelu i gornjem toku Bosne, te u središnjem dijelu Vrbasa sa posebno interesantnim kanjonom rijeke Ugar između Vlačića, Čemernice i Manjača).

Flora and fauna

Flora and fauna of Bosnia and Herzegovina in general, including the Herzegovina region is one of the most diverse in Europe, and high levels of endemism give it character at the level of global biodiversity. On this small geographical area, like almost nowhere else in Europe, there exist endemic centers in which the process of creating new species takes place even today. A special feature are the numerous canyons and gorges of Bosnian rivers (canyons of Una, Neretva, Drina, canyons and tributaries in the source area and the upper course of Bosnia, and in the central part of Vrbas with particularly interesting canyon of river Ugar among Vlačić, Čemernica and Manjača).

ELITA CLIFF DIVINGA PONOVO DOLAZI NA PRELIJEPI STARI MOST, 8. SEPTEMBAR, 2018, OD 13:15 H.

Petero pobjednika iz pet takmičenja - tri za muškarce i dva za žene, ali od sada još niko nije uspio odbraniti pobjedu na Starom mostu. Kada Svjetsko prvenstvo ponovo stigne u Bosnu i Hercegovinu na pretposljednju stanicu sezone 2018, vatrena mostarska publika će nestrpljivo iščekivati da vidi šta su najbolji svjetski skakači i skakačice ovaj put pripremili.

Sežući čak do 17. vijeka, takmičarski skokovi s mosta su tradicija u Mostaru dugi niz godina, a kada cliff diveri ponovo stignu na historijski kameni most s jednim lukom, gledaoci će znati sva njihova imena. Ovdje se jednako poštovanje gaji prema tradicionalnim skokovima s jednog od najpoznatijih simbola Bosne i Hercegovine, u svojevrsnom ispitu zrelosti za mladiće, i prema finoj umjetnosti cliff divinga.

THE CLIFF DIVING ELITE WILL ONCE AGAIN GRACE THE BEAUTIFUL AND HISTORIC OLD BRIDGE, ON 8th SEPTEMBER, 2018, 1:15 AM.

Five winners in five competitions, three for the men and two for the women and no one was able to defend a victory off Stari Most, the old bridge, so far. When the World Series returns to Bosnia and Herzegovina for the last-but-one stop in the 2018 season a fanatical crowd will eagerly await what the sport's aesthetes have in store for them.

Dating back to the 17th century, competitive bridge diving has been a tradition for many years in Mostar, and when the cliff divers come back to the historic single span stone bridge the locals know all their names. This is the place where both, the traditional diving from the country's most recognizable landmark in a sort of maturity test for young men, and the fine art of cliff diving, are equally respected.

0 Mostaru

Poznat kao grad mostova i grad mladost, prepun je jedinstvenih lokaliteta kulturno-povjesnih blaga od kojih treba posebno istaknuti kameni srednjovjekovni Stari most, koji spaja lijevu i desnu obalu hercegovačkog bisera - rijeke Neretve. Mnoštvo prekrasnih parkova, sportskih terena, muzeja, galerija i klubova čine ga za život idealnim, ljudima nudi pozitivna ushićenja koja se dugo pamte. Mnoge su znamenitosti koje ni jednog turista ne ostavljaju ravnodušnim.

About Mostar

Known as the city of bridges and city of youth, it is full of unique locations with historical and cultural treasures the most prominent being the Old Bridge, made stone and dating back to the Middle Ages, which joins the left and the right bank of the Herzegovinian pearl - the river Neretva. A number of beautiful parks, sports terrains, museums, galleries and clubs make it an ideal place for living offering people positive excitement that stays in their memory for a long time. There are many monuments that will leave no tourist uninterested.

Bišćevića kuća - Od sačuvanih stambenih kuća iz turskog doba u Mostaru najznačajnija je Bišćevića kuća poznatija kao Bišćevića ćošak ili Turska kuća. Sagrađena je 1635. godine a Ćošak isturen nad Neretvom na dva veoma visoka i smjelo postavljena kamena stuba, predstavlja ovu kuću kao najsmjelije komponovano djelo stambene arhitekture iz turskog perioda u Mostaru.

The Biscevic House - Turkish house or Bišćevića corner, is one of the most beautiful preserved residential structures from the Turkish period. Built in 1635. year, Ottoman house rests (some parts on pillars of over 5m long) on the eastern banks of the Neretva.

Franjevački samostan - U Mostaru, osmanlije su pomogli izgradnju katoličke crkve 1866 godine. Crkva je stradala u ratu 1992. godine, a 2000. godine, na istom mjestu je napravljena nova crkva većih dimenzija. Ovaj kompleks se može pohvaliti bibliotekom sa 50.000 starih

Bišćevića kuća/The Biscevic House

spisa, zapadnih i istočnih, i najveći je, takvih karakteristika, u cijeloj Hercegovini.

Franciscan monastery - In Mostar, the Ottomans helped build a Catholic church in 1866. The church was destroyed during the 1992 war and the new, larger

structure was erected in 2000 on the foundations of the previous building. The Complex is also proud of its library with its prestigious 50,000 ancient volumes of both the Western and Eastern worlds, and in fact it is the largest of all the libraries with such characteristics in the whole of Herzegovina.

Hadži-Kurtova džamija - Tabačica - Ova džamija je sagrađena na prelazu iz XVI. u XVII. vijek po želji Hadži-Kurta, predstavnika jedne od najstarijih mostarskih porodica. Nalazi se na desnoj obali Neretve, stotinjak metara od Starog mosta, pored Tabhane, kvarta u kojem se štavila, obrađivala i prodavala koža. Ova džamija je dobila ime po njenim korisnicima tabacima tj. kožarima.

Hadzi-Kurt Mosque or Tabačica - This mosque was built between the 16th and 17th centuries, as desired by Hajji Kurt, member of the ancient Mostar Kurt family. Standing on the right bank of the Neretva River, about 100 metres from the Old Bridge, this mosque was next to the antequ Tabhana, the district where leather processing workshops were once found; and this fact reveals the mystery of its name, deriving actually from the term Tabaci (leather tanners).

Kajtazova kuća -

U istoimenoj ulici nalazi se Kajtazova kuća izvorno očuvana, nastala najvjerojatnije krajem 16. ili početkom 17. vijeka. Kuća pripada gradskoj stambenoj arhitekturi turskog doba i najljepši je stambeni kompleks s kućom za muškarce i kućom za žene.

Kajtazova kuća/Kajtaz's House

has been preserved. The house belongs to town dwelling architecture, and it is the most beautiful living complex built in Turkish times, with separate houses for men and women. Valuable carpets can be seen on the floors of large rooms, and numerous books in Arabic have been preserved.

Koski Mehmed-Pašina džamija - Ovu džamiju je sagrađio početkom XVII vijeka Mehmed-Paša. Sa minareta, koji je udaljen samo par metara od rijeke Neretve, moguće je uživati u prekrasnoj panorami grada. U privlačnoj atmosferi dvorišta džamije moguće je napraviti pauzu i opustiti se u jednom veoma sugestivnom i jedinstvenom ambijentu.

Koski Mehmed-Pasha Mosque - This mosque was built at the beginning of the 17th century by Koski Mehmed-Pasha. From the minaret, at only five metres from the Neretva River, a spectacular panoramic view of the city can be enjoyed. The welcoming atmosphere within the courtyard offers a pleasant, relaxing break in a unique and romantic context.

Kriva ćuprija - Na rijeci Radobolji, blizu njenog uća u Neretvu u blizini Starog mosta, nalazi se Kriva ćuprija, minijatura verzija Starog mosta. Sagrađena je 1558. godine a prema nekim predajama Stari Most je sagrađen po uzoru na ovaj mali most.

The Sloping bridge - One of the oldest preserved monuments of Turkish rule period, is The Sloping bridge on Radobolja river. This small bridge was built before 1558. and according to some narrations this small bridge was a prototype for the building of the Old Bridge.

U prošlosti, on je bio žila kucavica trgovine cijele regije, a za vrijeme Otomanskog carstva brojao je više od 500 dućana.

U SRCU STARE JEZGRE NALAZI SE NAJRAĆA MOSTARSKA ULICA

Mostar je oduvijek imao najljepše ulice i sokake. No, osim toga ima i najkraću ulicu. Ulica Kulluk (ili kako na zvaničnoj tabli stoji - Kurluk) duga je svega 28 metara. No, ona čuva neke od najzanimljivijih, ali iznimno značajnih historijskih činjenica. U ovoj ulici 1884. godine održana je prva kazališna predstava "Veliki Petar, car ruski" koju je priredilo Srpsko narodno pozorište iz Novog Sada. Na uglu ulice Kulluk i Kujundžiluka postojao je han koji je sagrađen za vrijeme turske vladavine. Osim ovih kulturnih i bitnih događaja za grad Mostar, ova ulica pamti i strahote prirodnih nepogoda iz 1804. godine kada su zabilježene velike oborine koje su došle s platoa Podveležja. Danas se u ovoj ulici nalaze dva ugostiteljska objekta s predivnim pogledom na simbol grada Mostara - Stari most, a mnogi turisti i građani koji kroz nju prolaze ili u njoj sjede ni sami ne znaju kakve sve priče i zanimljive događaje krije ova ulica. Kulluku u prevodu sa turskog jezika znači "ulica nadničara", kao što je bila za vrijeme turske vladavine.

IN THE HEART OF THE OLD CORE IS THE OLDEST MOSTAR STREET

Mostar always had the most beautiful streets and hammocks. But there is also the shortest street. Kulluk Street (official name - Kurluk) is only 28 meters long. The street keeps some of the most interesting, but extremely

important, historical facts. In this street was held the first theater performance in 1884 "Veliki Petar, car ruski" (The Great Petar, Russian emperor) directed by the Serbian National Theater from Novi Sad. At the corner of Kulluk and Kujundžiluk there was an inn built during Turkish rule. In addition to these important cultural events, this street also remembers the horrors of natural disaster from 1804 when large floods came from area of village Podvelež. Today, there are two hospitality facilities in this street, with a wonderful view on the Old Bridge. Many tourists and citizens who pass through Kulluk Street do not know all the stories and interesting events hidden by this street. The Turkish translation of the Kulluk means "the street of the peons".

EDIN PANDUR TRADICIONALNI ZANAT ČUVA OD ZABORAVA

U samom srcu mostarskog bisera – na vrhu ulice Kujundžiluk, koju je oduvijek krasio reski zvuk čekića kojim su stari majstori ukrašavali bakrene ukrase, u skrivenom kutku, nalazi se atelje „Art Studio Pandur“ sa tradicijom dužom od 50 godina. Dvije generacije porodice Pandur, otac Ramiz i sin Edin, uz svesrdnu pomoć svih članova porodice, izrađuju umjetničke predmete, slike i ukrase od bakra. Kroz decenije, tradicionalna tehnika cizeliranja i graviranja je temeljito inovirana, ali na način da je zadržana izvorna tradicija, a na novi moderan način.

EDIN PANDUR'S TRADITIONAL TRADE KEEPS FROM OBLIVION

In the heart of the Mostar Pearl - at the top of the street Kujundžiluk, that echoed the hammer sounds of the old craftsmen - there is an "Art Studio Pandur" with a tradition of 50 years. Two generations of Pandur's family, father Ramiz and son Edin, with generous help from all family members, make artistic objects, paintings and copper ornaments. Through the decades, the traditional repoussé, chasing and engraving technique has been thoroughly innovated, but in the way of retaining its original tradition in a new contemporary way.

GUARDIAN: PRUGA SARAJEVO-MOSTAR MEĐU 18 NAJLJEPŠIH I NAJATRAKTIVNIJIH NA SVIJETU

Ugledni britanski list „Guardian“, uvrstio je vožnju željezničkom prugom od Sarajeva do Mostara među 18 najljepših na svijetu. Pored najatraktivnijih svjetskih željezničkih dionica poput onih od Londona do Fort Williama, od Napulja do Palerma, od Bastilje do Ajaccia, Johannesburga do Cape Towna te dionica u Peruu, Aljasci, Kanadi, Indiji, svrstana je i pruga od Sarajeva ka jugu.

Prošlo ljeto, nakon dvije godine obnove upostavljena je linija Mostar-Sarajevo sa modernim klimatiziranim vagonima. Autorica teksta preporučila je turistima ovu dionicu, te kazala da za nisku cijenu dobiju izuzetan doživljaj.

Dok autocesta ide dolinom, pruga se probija kroz planine i preko vijadukta i brojnih tunela, opisala je autorica. Cijena je kako navode samo pet britanskih funti, a putovanje traje dva sata. Željeznice Federacije BiH su prošle godine stavile u puni promet nakon godina čekanja moderne Talgo vozove koji su znatno poboljšali ponudu i poslovni rezultat ove kompanije.

GUARDIAN: PRUGA SARAJEVO-MOSTAR AMONG THE 18 MOST BEAUTIFUL AND MOST ATTRACTIVE IN THE WORLD

The prestigious journal British Guardian included the railway from Sarajevo to Mostar among the 18 most beautiful railways in the world. In addition to the most attractive railways in the world such as links from London to Fort William, from Naples to Palermo, from Bastille to Ajaccio, Johannesburg to Cape Town, and the links from Peru, Alaska, Canada and India, there is also a railway link from Sarajevo to the south.

Last summer, after two years of reconstruction, the Mostar-Sarajevo railway with modern air-conditioned wagons was set up. The author of the text recommended this route to the tourists, and pointed out that for a low price you can get an extraordinary experience.

Author described how highway goes down the valley, and the railway runs through the mountains and over the viaduct and numerous tunnels. The price is only five British pounds, and the journey lasts two hours. Last year, the Railways of the Federation of Bosnia and Herzegovina were put into full traffic after years of waiting for modern Talgo trains that significantly improved the offer and business result of this company.

Dobro vino je sinonim za hercegovačko vino!

Pored turističkih atrakcija, ljubaznog stanovništva i vrele klime, Hercegovina je također poznata i po svojim vinima. Ovdje se vino pije preko 2200 godina. Iako je vinarstvo u Hercegovini imalo je svojih uspona i padova ono nikada nije prestalo biti glavna grana poljoprivrede, a može se reći i način života ovdašnjih ljudi. U Hercegovini proizvodnja dobrog vina nije samo posao, to je ljubav, način života... to je jednostavno sastavni dio onoga što čini jednog Hercegovca. Vina koja u sebi nose miris zemlje i žestinu hercegovačkog sunca zasigurno su Žilavka i Blatina po kojima je Hercegovina i najprepoznatljivija u svijetu vina. Ako vas put nanese u ove naše južne krajeve, obavezno se počastite i Žilavkom i Blatinom i potvrdite našu tvrdnju da je „dobro vino sinonim za hercegovačko vino“

Good wine is synonym for the Herzegovinian wine!

Besides tourist attractions, friendly people and hot climate, Herzegovina is also known for its wines. Here we drink wine over 2200 years. Although the wine production in Herzegovina has had its ups and downs it never stopped being the main branch of agriculture, and a way of life for local people. In Herzegovina, production of fine wine is not just a job, it's love, the way of life ... it is simply an integral part of what makes a Herzegovinian. Wines that incorporate scent of this land and sharpness of the Herzegovinian sun are certainly Žilavka and Blatina for which the Herzegovina is most famous for in the wine world. If the road takes you to our southern parts, be sure to treat yourself with Žilavka and Blatina, and confirm our claim that „good wine is a synonym for Herzegovinian wine“.

Mostar shopping: Suveniriri – Stari grad

U Mostaru je postojalo trideset različitih vrsta zanatskih udruženja, od kojih neka datiraju još od 1762. godine, kao što su pekari (ekmekdžije), krojači (terzije), obućari (baškmadžije), kožari (čurčije), tkači (čebedžije), zlatari (kujundžije), kovači (timurdžije), štaljvači (tabadžije), brijači (berberi) i zidari (dunderi). Razvoj ovih zanata u Mostaru počinje odmah po dolasku Turaka u XV vijeku, sa transformacijom grada iz srednjovjekovne utvrde u urbani centar. Otomanski utjecaj, zahvaljujući razvijenim tehnikama obrade i već postojećim udruženjima, bio je odlučujući za razvoj lokalnog zanatstva, o kome se dobar glas proširio po cijelom carstvu. Svaka od zanatskih grupacija posjedovala je svoje ulice unutar čaršije koje su se nazivale po vrstama aktivnosti koja se u njima obavljala. I danas, mnoge ulice su poznate po tim starim nazivima, kao što su Kujundžiluk ili Tabhana.

Mostar Shopping: Souvenirs - Old Town

There was a thirty different type of craft associations in Mostar, some of which date back to 1762, such as those of the bakers (ekmekdžije), the tailors (terzije), the shoemakers (baškmadžije), the leather makers (čurčije), the weavers (čebedžije), the goldsmiths (kujundžije), the locksmiths (timurdžije), the tanners (tabadžije), the barbers (beberi), and the builders (dunderi). Development of the craft in Mostar begins immediately after the arrival of the Turks in the fifteenth century when the city was urbanized from a medieval settlement into a city. The Ottoman influence, due to its exceptional technical and working knowledge – with craftsmen already divided into guilds – was an essential factor in the growth and evolution of the local crafts production, whose fame spread throughout the entire Empire. Each of the craft group possessed its own streets within the bazaar, which were named after types of activity that are performed in them. Even today, many streets are known for these old names, such as Kujundžiluk or Tabhana.

ABOUT MEĐUGORJE

Medjugorje is a marian shrine and a world-famous pilgrimage site often times compared to Lourdes and Fatima. Some 20 million pilgrims have visited Medjugorje in the first 20 years and each pilgrim visits the parochial Church of St. Jacob, located in the centre of the town, the Hill of Apparition in Bijakovići - the place where the Blessed Virgin Mary appeared for the first time, the Hill of Cross where a huge cross was erected in 1993, as well as St. Francis' Garden, Mother's Village and Cenacolo Community.

Brdo Križevac - brdo iznad Međugorja (520 m) na kojem su župljani još 15. ožujka 1934. godine podigli 8,56 metara visok armiranobetonski križ na kojem stoji: «Isusu Kristu, Otkupitelju ljudskog roda, u znak svoje vjere, ljubavi i nade, u spomen 1900. godišnjice Muke Isusove».

On the cross is written: "To Jesus Christ, Redeemer of the human race, as a sign of their faith, love and hope, in remembrance of the 1900 years since the death of Jesus".

Crkva sv. Jakova - Nakon utemeljenja župe 1892., prva župna crkva, za ono vrijeme velika i lijepa, bila je dovršena 1897. godine. Zbog trusnog tla na kojem je bila sagrađena, njezini su zidovi ubrzo počeli pucati a cijelo zdanje tonuti, pa se odmah nakon I. Svjetskog rata počelo misliti na gradnju nove crkve, na kojoj su radovi trajali od 1934. do 19. siječnja 1969, kada je bila i blagoslovljena.

St. James' Parish Church - The construction of the old parish church was completed in 1897, soon after the creation of the parish (1892). It was a spacious and

Nadomak Mostara nalazi se Počitelj, prelijepo i savršeno mjesto za odmor. Iznad grada nalazi se i tvrđava koju godišnje obide veliki broj turista iz cijelog svijeta. Tvrđavu je sagradio kralj Tvrtko 1383. godine, i imala je stratešku ulogu u kontrolisanju puta do mora dolinom rijeke Neretve. Danas, historijski Počitelj, izgrađen ispod tvrđave, ima orijentalni izgled i kao takav je potpuno u funkciji turizma i kulturnih priredbi. Jedinstveno prelijepo naselje uvršteno je na UNESCO-vu listu. Grad se prvi put spominje u pisanim dokumentima 1444. godine. Pretpostavlja se da ga je dao izgraditi bosanski kralj Tvrtko 1383. godine. Ovaj srednjovjekovni gradić imao je mediteranski izgled, ali je nakon turskog osvajanja orijentalno preoblikovan. Mješavina ova dva graditeljska stila daje Počitelju posebnu dimenziju. Počitelj je zanimljiv i poznat kao domaćin likovnoj koloniji sa najdužom tradicijom u jugoistočnoj Evropi.

The fort was built by King Tvrtko in 1383, and had a strategic role in controlling the sea ways by the Neretva River Valley. Today, the historic site of Počitelj, built under the fortress, has an oriental look. The uniquely beautiful

village is listed on the UNESCO list. The city was first mentioned in written documents in

1444. It is assumed that it was built by the Bosnian king Tvrtko in 1383. This medieval town had a Mediterranean appearance, but after the Turkish conquest it was orientally rebuilt. A mix of these two architectural styles gives Počitelj a special dimension. Počitelj is known as the host of art colonies with the longest tradition in Southeast Europe.

O ČAPLJINI

Grad i općina Čapljina utkani su u razvedene i pitome prostore donjeg toka Neretve. Okružuju ga kasnoantički objekti Mogorjelo i Gabela, egzotični krajolik Struga, drevni kameni Počitelj nadaleko čuveni kompleks srednjovjekovne arhitekture te Hutovo blato. Čapljina je grad na četiri rijeke: Neretvi, Trebižatu, Bregavi i Krupi.

ABOUT ČAPLJINA

The town and the Municipality of Čapljina are interwoven into the well-indented and tame area of the lower river Neretva course. It is surrounded by Late Antique monuments Mogorjelo and Gabela, the exotic landscape of Struga, ancient Počitelj - the famous stone complex of the medieval architecture and Hutovo blato. Čapljina is located on four rivers: Neretva, Trebižat, Bregava and Krupa.

Castrum Mogorjelo - U neposrednoj blizini Čapljine smješteno je Mogorjelo. To je bila rimska Villa rustica. Predmeti nađeni u Mogorjelu potječu iz IV. Stoljeća.

Castrum Mogorjelo - Mogorjelo is located in the vicinity of the town of Čapljina. The items found in Mogorjelo date back to the 4th century.

Gabela - bogato arheološko nalazište na desnoj obali Neretve i nacionalni spomenik kulture BiH. Radi strateškog položaja Gabela je bila naseljena i u rimskim dobu iz kojega imamo ostatke ciglane i gospodarskih zgrada na periferiji mjesta.

Od velikog broja srednjovjekovnih građevina su do danas najupečatljiviji ostaci stare utvrde te kamena ploča velikim krilatim lavom simbolom Mletačke republike.

Gabela

Gabela - rich archeological find on the right bank of the Neretva and a national monument of BiH. The remains of the brick house and the ruins of the manors in the suburb suggest that Gabela had a strategic position and was peopled even in Roman times. Of many medieval buildings whose remains have been found, the most significant are the old fortifications and the stone plate with the winged lion, the symbol of the Venetian Republic.

Hutovo blato - Riječ je o jednome od najbogatijih rezervata ptica močvarica u Europi. Udaljeno je 8 km od Čapljine, a prostire se na površini od 7 000 ha. U okrilju netaknute prirode svoje zimsko utočište nađe preko 200 vrsta ptica.

Hutovo blato - This is one of the richest wading bird reserves in Europe. It is located 8 km away from Čapljina and it covers an area of some 7 000 ha. In the shelter of intact nature, almost 200 bird species find their winter refuge every year.

Hutovo blato

Konjički klub "Vranac" - Na lokalitetu povijesnog Mogorjela se nalazi konjički klub "Vranac" koji nudi posjetiteljima jahanje u prirodi, vožnju kočijom, odnosno fjakerom i šetnju konjima uz rijeku Neretvu. Klub ima pet engleskih galopera, sedam domaćih rasnih konja te dva ponija za djecu. Klub je otvoren svakodnevno za posjetu i jahanje.

Equestrian dub "Vranac" - At the location of the historical Mogorjelo there is an equestrian club "Vranac" offering to its visitors horse rides in nature, carriage rides and walks with horses along the river Neretva. The club has five English thoroughbreds, seven local studs and two ponies for children. The club is open every day for visits and riding.

Konjic: Atomska ratna komanda ili Titov bunker

U gradiću Konjicu, koji se nalazi pored rijeke Neretve, nalazi se nuklearni bunker poznat pod nazivom Atomska ratna komanda, koji je izgrađen tijekom revolucije u Jugoslaviji i predsjednika Josipa Broza Tita. Ovo sklonište zauzima površinu od 6.500 metara kvadratnih i sastoji se od 12 povezanih blokova. Izgleda kao komplicirani labirint, sa stambenim područjima, konferencijskim dvoranama, uredima, sobama za strateško planiranje i ostalim funkcionalnim područjima. Konstrukcija i postojanje ovog bunkera bilo je tajno sve do 1990. godine, kada je konačno otkriven javnosti. Danas je u ovom bunkeru izložba suvremene umjetnosti.

Park prirode Blidinje, zbog svojih povoljnih geomorfoloških značajki i prekrasnog krajolika, proglašeno je parkom prirode 30. marta 1995. godine. Ovaj park je jedinstveni prirodni fenomen, gdje žive mnoge endemske vrste flore i faune s puno izvora čiste, pitke vode. Park prirode Blidinje je dobio ime po jezeru Blidinju, koje se nalazi u mjestu zvanom Dugo Polje na visini od 1184 metara nadmorske visine. Pored jezera, najpoznatije znamenitosti ovog parka, su bogata arheološka nalazišta. Tu spada nekropola sa 150 stećaka u Dugom Polju, koja je proglašena nacionalnim spomenikom Bosne i Hercegovine u januaru 2004. godine. Popularno svetište Kedžara, koji je poznat po grobu prekrasne kćeri Luke Grabovca, Dive iz Rame, također se nalazi u Nacionalnom parku Blidinje. Među kulturnim mjestima vrijednih spomena je lijepi franjevački samostan s umjetničkom galerijom, koja se nalazi u naselju Masna Luka. Zimi možete uživati u skijanju.
